Betreff **Measures to curb spread of the coronavirus CoVid-19**

Dear Sirs and Madames,

the spread of the corona virus (CoVid-19) currently dominates general reporting. The health and well-being of employees and partners is a top priority for AVR GmbH, so we are monitoring the situation very closely. Our goal is to prevent the virus from spreading to our company.

For this reason, people who have visited a country in the past two weeks that have travel restrictions due to CoVid-19 (currently China, Hong Kong, Taiwan, Macau, Southeast Asia and South Korea, Iran, Italy and Japan) or who have contact with a (potentially) infected person did not have access to our company premises until further notice.

With this in mind, we ask you to clarify with employees of your company who work at our location whether the above criteria apply.

Sincerely yours

DI Reinhard Olbrich  
Managing partner

DI (FH) Tobias Olbrich  
Managing director
